Revision of:

HVDC Pole 3 Outage

Transpower advises that there will be an HVDC Pole 3 outage for proactive maintenance at Haywards in January 2027. This work must be completed to enable work in the planned HVDC outages in February-March 2027.

Pole 3 Outage: 05:00 16/01/27 to 18:00 21/01/27

HVDC capacity during this outage:

Asset	North Capacity	South Capacity
HVDC Pole 2	500 MW	489 MW
HVDC Pole 3	0 MW	0 MW

This CAN is to provide early advice of the above outage being submitted into POCP. An HVDC outage CAN will be issued 7-14 days before the outage with confirmed dates and times prior to the start of this work.

A revision of this notice will be issued if there is any change to the situation above.
