

TRANSPOWER

WRNI

Warning Notice

To: WRN NI Participants
Sent: 13-nov-2025 13:20
Ref: 6823234109

From: The System Operator
Telephone: 0800 488 500
Email: NMData@transpower.co.nz

Revision of:

Cause: Insufficient transmission capacity Waikato

Region or GXP affected: Waikato

Starting: 13-nov-2025 16:00

Ending: 13-nov-2025 20:00

The System Operator advises there is a risk of insufficient transmission capacity to meet demand and provide N-1 security for a contingent event.

Consequences on the power system:

Grid assets are exceeding offered capability.

For the period above you are requested to:

Decrease demand by: using controllable load (that is not offered as instantaneous reserve) and increasing distributed generation

At:

Hangatiki, Te Awamutu

Demand Allocations:

Total

Notes

Consequences if insufficient responses by participants:

System Operator will issue a GEN which may require participants to shed load to avoid disconnection or further system consequences.

Management of demand may occur

For more information contact the Security Coordinator on 0800 488 500

Up to date island residual information is available on the [WITS website](#).

More information on the System Operator's procedures for low residuals or insufficient energy and reserves is [here](#).
